Full Stack Developer — MERN Stack

Summary

Full Stack Developer with hands-on experience building and debugging **production web applications** using **Node.js, Express.js, React.js, and MongoDB**. Experienced in **REST API development**, third-party integrations, and workflow automation. Built and deployed end-to-end full-stack applications with modern development practices.

Experience

Full Stack Developer (GET) | ROVO Automation India Private Limited

Feb 2026 – April 2026

- Contributed to **production CRM and HRMS applications** across backend APIs and frontend integrations
- Built and maintained **REST APIs** using **Node.js** and **Express.js**, handling business logic, validation, and third-party integrations
- Debugged critical attendance workflow issues**, including check-in/check-out inconsistencies and **data integrity** edge cases
- Improved UI components and frontend integrations in React-based modules for smoother user workflows

Web Development Intern | Vault of Codes

August 2025

- Developed and shipped key features for **MindSpace**, a **full-stack mental wellness platform**
- Integrated **third-party APIs** and optimized backend queries for improved responsiveness
- Built responsive frontend components with React.js and modern UI practices

Projects

Shortlisto — Recruitment Management Platform | [React.js](#), [Node.js](#), [Express.js](#), [MongoDB](#) | [Live](#) · [GitHub](#)

- Built an **end-to-end campus hiring platform** for candidate shortlisting and recruitment workflows
- Developed secure **REST APIs** for candidate management, assessment workflows, and result processing
- Integrated automated email notifications for candidate communication
- Designed **backend workflows** supporting recruiter decision-making and analytics

HR Management System (HRMS) | [React.js](#), [Node.js](#), [Express.js](#), [MongoDB](#) | [Live](#)

- Worked on **production HRMS modules** including attendance tracking, employee workflows, and leave management
- Debugged **attendance business logic** involving check-in/check-out edge cases and inconsistent state transitions
- Implemented **cron-based automation** for scheduled attendance resets and workflow integrity
- Improved backend reliability for production employee management operations

Interview Mate — AI-Powered Interview Prep | [React.js](#), [Node.js](#), [Express.js](#), [MongoDB](#), [Gemini API](#) | [Live](#) · [GitHub](#)

- Built a **full-stack AI-powered interview preparation platform** with role-specific question generation
- Integrated **Gemini API** for dynamic interview question creation and prompt-based workflows

Technical Skills

Languages: JavaScript (ES6+), Java

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Material UI

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code, Render, Vercel

Integrations: Gemini API, Third-party APIs

Education

B.Tech in Computer Science | NIMS University, Jaipur

Sept 2022 – June 2026 (Expected)

CGPA: 8.7

Certifications

Full Stack Development (MERN) | Apna College | [View Certificate](#)
